

# ASSET LABELS AND TAGS

Improve tracking and management of key assets and equipment with durable asset labels and tags from ID Label.

## Durable Labels for a Variety of Uses

ID Label's high-quality, durable asset labels are an ideal way to ensure that your capital equipment and other assets are properly tracked and inventoried throughout their useful lives. Computers, monitors, furniture, totes, machine components, tools, fixtures, vehicles — we offer options for virtually any type of asset and environment.

Options include durable polyester or metal labels resistant to harsh chemicals and extreme temperatures from -40 to +250°F. All labels have an aggressive adhesive for excellent adhesion to varying profiles such as engineered polymers, aluminum, wood, plastics and steel surfaces.

## Options to Fit Your Budget and Application

We'll work with you to design custom asset labels and tags to match your objectives.

- **Polyester Labels**—our economical polyester labels feature a protective laminate and are typically supplied in convenient rolls of 500 labels.
- **BullsEye™ Labels**—our ultra-durable material is ideal for tracking high-traffic items like reusable pallets and containers.
- **Metal Tags**—our durable metal asset tags are resistant to extreme temperatures, abrasions and chemicals. Ideal for manufacturing, warehousing and similar environments.
- **Design Options**—our asset tracking products can accommodate barcodes, numerals, logos, addresses and other pertinent information.

Durable asset tags, paired with barcode scanners and inventory management software, are the ideal solution for a robust asset management program.
