

WAREHOUSE LABEL AND SIGN INSTALLATIONS

ID Label not only manufactures the highest quality warehouse rack labels and retro-reflective signs, we also install them — using our own team of ID Label employees to ensure the job is done right.

For projects ranging from 200 warehouse signs to one million rack location labels, you can rely on ID Label to make sure you meet your “go-live” date.

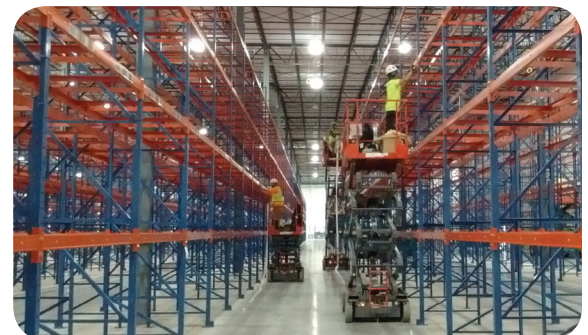

Why ID Label Installation Services Lead the Industry

- **Experience** - Our nationwide staff (ID Label employees, not hired contractors) has deep experience to ensure your project is completed correctly and on time. Each year we install more than one million warehouse labels and 50,000 signs nationwide. And we're fully insured and bonded.
- **Flexibility** - We work within your requirements, including installations on nights and weekends, to minimize disruptions during your automation or construction process.
- **Project Management** - All of our installations include complete planning and project management services. This includes material and layout recommendations and data file creation and management.

Safely and securely installing overhead bulk storage warehouse signs, aisle markers, dock signs and hanging zone markers—to name a few—requires expertise, knowledge and specialized equipment.

ID Label expertly installs millions of labels and signs each year. Our employees are the most experienced in the industry.

- Tote labeling

The ID Label Difference

We are a true product manufacturer.

What does that mean for you?

A comprehensive turnkey solution from start to finish.

Planning and project management begins early and incorporates the manufacturing and preparation of your complete set of labels and signs manufactured in one of our two state-of-the-art facilities. We prepare and package these assets to ensure the most efficient, error-free installation process.

Contact us today for details, references and a free consultation.

WHAT CUSTOMERS ARE SAYING...

"It was a real pleasure working with ID Label. Great communication from the installation crew throughout the project. They even made some good recommendations I hadn't thought of."

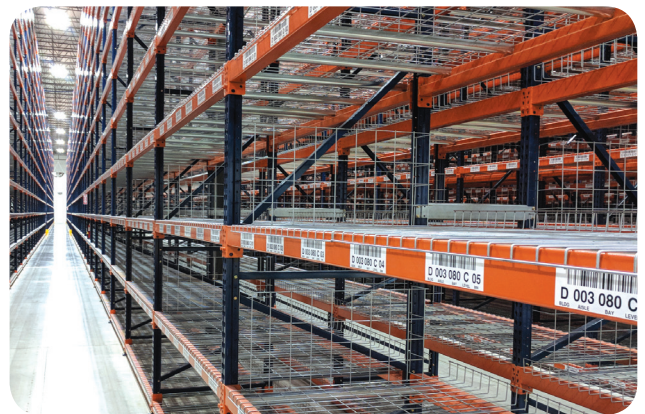

- Jack Katz, Inventory Control Manager,
Lifeway Foods Inc.

"The team assigned to our labeling project is great! James is a pleasure to work with and all three just keep going throughout the day. I'm really glad we're using your installation services!"

- Kenneth McClarey, Operations
Manager, Getinge Group

"Your installation team was amazing! A very prepared, professional, first-rate crew that went above and beyond to ensure the job was done right."

- Steve Schult, Senior Director
of Supply Chain, Torani

All of our installations include material and layout recommendations and data file creation and management.
