

MAKE-AND-HOLD LPN LABEL PROGRAM

Save More. Worry Less. As a warehouse manager, you've got plenty of things to worry about. Running out of preprinted LPN barcode labels shouldn't be one of them.

Take advantage of ID Label's "Make-and-Hold" warehouse label program to keep those pallets shipping on time.

How It Works

By printing larger quantities of your sequential LPN labels, we can offer volume discounts. We ship what you immediately require and inventory the rest until you need another shipment. You're only billed for quantities as they ship.

- Lower per-label costs with low upfront expenses
- Ensures you never run out of barcode labels
- Convenient billing
- Labels stored in our climate-controlled warehouse
- Ideal for higher-volume warehouses and DCs

Ready When You Are

With ID Label's Make-and-Hold program, your next set of sequential pallet labels is always in stock, ready to ship the same day.

Plus, our labels are manufactured with premium-quality materials on our state-of-the-art high-speed digital UV inkjet presses. Unlike most labels produced with in-house equipment, our durable LPNs won't smudge or fade. That means 100% accuracy scan after scan.

So relax, we've got you covered!

ID Label's Make-and-Hold program lets you take advantage of volume discounts without the upfront expenses. And your next set of sequential LPN labels is always in stock, ready to ship ASAP.
