

# DURABLE WAREHOUSE FLOOR LABEL KITS

ID Label's floor location label kits feature durable construction to withstand daily encounters with forklift trucks, pallets, carts and foot traffic.

## Two Floor Label Kit Options

Floor plate location labeling kits are a viable option for identifying bulk storage locations in a multitude of environments and surfaces, especially when overhead signage is not an option.

ID Label offers two floor label kits, each featuring a low-profile design for added durability. One is designed to pair with our highly durable BullsEye™ self-adhesive labels. The other features a Lexan polycarbonate protective cover, which can be removed for cleaning or replacement when necessary.

## Key Features

- **Tough and Durable** - Rugged, one-piece aluminum frame with beveled, low-profile design stands up to daily warehouse traffic from forklift trucks, carts, pallets and foot traffic.
- **Accurate Scans** - Durable BullsEye™ label or protective Lexan cover ensures accurate, readable scans time after time.
- **Easy Installation** - Each ID Label floor labeling kit includes four concrete fasteners, a concrete drill bit and installation instructions. The plates can also be installed using adhesive backing and on multiple surfaces such as concrete, asphalt, wood or fiber board.

## Product Specifications

### Oval Floor Plate

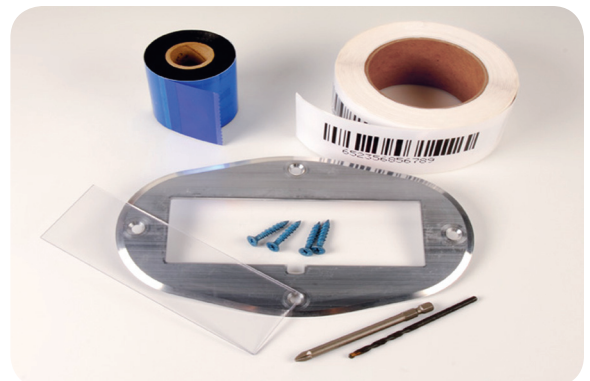

- 8 ½" x 5" aluminum frame
- 6" x 2" protective Lexan cover
- Concrete fasteners and drill bit included

### Rectangular Floor Plate

- 9 ½" x 3 ½" aluminum frame
- 8" x 2" label opening
- Concrete fasteners and drill bit included

The above rectangular floor label kit pairs with ID Label's ultra-durable BullsEye™ labels. The oval kit below features a Lexan polycarbonate protective cover, which can be removed for cleaning or replacement.
