

BEAM RENEW™ COVER UP

Easily relabel your warehouse racks without the time and expense of scraping, cleaning or painting.

No Scraping. No Residue. No Kidding.

Beam Renew is our innovative solution for easily relabeling your warehouse racks. Simply apply directly over old or damaged barcode labels. A metalized backing eliminates show-through and ensures accurate scans. There's no need to scrape old labels, so you'll eliminate countless unproductive worker hours.

And with Beam Renew's laminated top coating, it's easy to relabel your warehouse beams when product inventory and information changes or when re-slotting or reconfiguring locations.

Beam Renew applies directly over old barcode labels without any labor-intensive scraping required. Our custom manufacturing process uses specialized materials to eliminate any show-through, ensuring accurate scans.

Key Features of Beam Renew™

- **Easily Relabel Racks** – Apply barcode location labels directly to Beam Renew for easy removal whenever product information or inventory changes. There's no residue, gunk or labor-intensive clean-up.
- **Durable Construction** – Metalized adhesive backside for 100% cover up and consistently accurate scans.
- **Cost Effective** – Relabeling locations is quick and easy, which means warehouse workers are more productive and your operations are more efficient.
- **Eco-Friendly Option** – Our new linerless version eliminates environmental waste, is faster and easier to apply, and reduces potential for slip and-fall injuries from discarded liners.
- **Color Variety** – Available in multiple colors to match or contrast your beams. Great way to color code multilevel racks to match totem labels for accurate picking and inventory management.
